Personal Protection Equipment (PPE)	56-58
Power Tools(Tools).....	65 & 66
Recordkeeping	59
Respirators	60
Restraint Seats(Driving – Restraints Seats & Belts).....	18
Rigs(Fall Protection).....	26 & 27
Safety Orientations	61 & 62
Scaffolds(Ladders).....	47 & 48
Seat Belts(Driving – Restraints Seats & Belts).....	18
Security	63
Shoring(Trenching & Shoring).....	68
Slips, Trips & Falls (also see Fall Protection).....	64
Supervisor Training (Safety Orientations).....	61 & 62
Tools (Hand & Power)	65 & 66
Tornados(Disaster Preparedness).....	10 & 11
Training Kits	75 & 76
Trains	67
Trenching & Shoring	68
Trucks (also see Forklifts, Backhoes).....	69 & 70
Ventilators(Respirators).....	60
Walking & Working Surfaces	71

Welding(<i>Hotworks</i>).....	72
Winter Driving(<i>Driving – Winter</i>).....	19
Workers Compensation	74
Work Zone Safety	73

Accident Investigations

Video #1	Industrial Accident Investigation <i>This video covers techniques in maintaining and collecting information at the scene of industrial accident. Information can then be analyzed for prevention programs.</i>	12 minutes
Video #2	No Injury, No Accident (Manual Included) <i>Every accident or near miss must be taken seriously. These are warnings that other accidents with more serious results might happen, unless the causes are found and removed. A training manual is included.</i>	15 minutes
Video #3	Accident Investigation <i>This video will help identify accident investigation techniques for the purpose of preventing future mishaps. Stresses the importance of investigating accidents and reviews investigation techniques you can use.</i>	12 minutes
Video #56	OH-1 and OH-1 DUP <i>Describes in detail how to fill out a crash report for motorist or non-motorist. Step by step description on the correct procedures of filling in reports for the State of Ohio.</i>	51 minutes
Video #377	Wheels of Fortune: Grave Remarks <i>Accidents don't just happen - they are caused by people who fail to do the necessary planning required for the job. This video reminds us that for every action there is a set of prescribed outcomes. Many times we "luck out"; however, there is always the chance of an ultimate loss - death.</i>	7 minutes

Alcohol & Drugs

****Also see *Driving – Alcohol/DUI***

- | | | |
|--------------------|---|-------------------|
| Video #13 | Alcohol & Human Physiology
<i>What are the effects of alcohol on the human body? This video explains the ill effects of alcohol on the digestive circulatory, muscular, skeletal, urogenital, and nervous systems are demonstrated. Includes interviews with six recovering alcoholics.</i> | 24 minutes |
| Video #14 | Drugs at Work
<i>This video outlines why drug use or abuse in the workplace is so costly, and why education and employee assistance programs are so important.</i> | 25 minutes |
| Video #308 | Drug Use & Abuse
<i>Identifies characteristics of drug abusers, defines specific drugs and discusses hazards.</i> | 8 minutes |
| Video # 323 | Under the Influence: Alcohol in the Workplace
<i>Impaired judgment, unsteady actions, mood swings, and other effects of alcohol in the workplace are covered.</i> | 7 minutes |

Attitudes

Video #122	Safety Breakdown <i>Attitudes that leads to a moment of forgetfulness, which can cause an accident by a safety breakdown</i>	5 minutes
Video #123	Safe and Awake <i>This video addresses the importance of being aware of potential hazards in the industrial workplace. It points out important safety tips to enhance protection.</i>	12 minutes
Video #126	Safety Management <i>Objective: To train supervisors to approach safety as a safety management planning function rather than an accident prevention program. The video discusses safety responsibilities of front-line supervisors and upper management.</i>	12 minutes
Video #127	Attitude Awareness <i>A good video for general safety or supervisor training that discusses how safety attitudes affect production.</i>	15 minutes
Video #128	Dancing Alone <i>A safety film you will never forget! This video is a real life story that will have a profound emotional impact on everyone who watches it. The main message is the devastating impact on families of workers killed on the job.</i>	12 minutes
Video #129	Pro-active Safety Attitude - Target Zero <i>This video addresses the importance of being aware of potential hazards in the industrial workplace. It points out important safety tips to enhance protection.</i>	16 minutes
Video #229	Violence in the Workplace <i>This video will help your employees recognize and avoid or diffuse potentially violent behavior.</i>	15 minutes

Bicycle Safety

Video #106	Bicycle Helmet Safety <i>Proper placement of helmet, chin strap, safety tested.</i>	3 minutes
Video #601	Elephants Never Forget <i>A good overall bicycle safety video for children in grades Kindergarten thru 3rd.</i>	7 minutes
Video #602	Bicycle Safety <i>A video that describes basic rules and laws of safe bicycle driving. Good for the upper primary grades.</i>	12 minutes
Video #603	Bicycle Safety Camp <i>Meet camp counselor Sam Sprocket and learn how to ride safe and love it. Suited for 6 - 13 years of age.</i>	12 minutes
Video #605	Along for the Ride - Safer Bicycling for Everyone <i>Features several U.S. Olympic Team members and their coaches discussing suggestions for safe bicycling. Includes wearing a helmet, maintaining high visibility and rules of the road.</i>	18 minutes

Bloodborne Pathogens

Video #4	Bloodborne Pathogens 20 minutes <i>This video reviews the OSHA standard as it relates to industry and exposure control plans including: emergency contacts, personal protective equipment, proper housekeeping techniques, hepatitis B vaccine, hazard communication and proper recordkeeping.</i>
Video #228	Bloodborne Pathogens for Non-Healthcare Employees 12 minutes <i>This video is ideal for those employees who are not considered high risk yet must be aware of the hazards of bloodborne pathogens.</i>
Video #650	Controlling Your Risks HIV in the Research Laboratory 28 minutes <i>Designed for laboratory workers at risk of occupational exposure to HIV, the video promotes laboratory safety and highlights the practices and equipment used to protect against HIV transmission in the research environment. Thoughts of several prominent researchers, including Harold Varmus and Tony Fauci, are included.</i>

Bus Safety

Video #57

Mandatory Motor Coach Inspection

15 minutes

This video shows forms, details and inspection for state decals. Determines which bus must have decals and which those not required.

Child Safety

- | | | |
|-------------------|--|-------------------|
| Video #179 | Kids and Airbags (1996)
<i>Airbags in vehicles are very effective in saving lives and protecting against injury, but they can also be very dangerous in certain situations such as being in the direct path of an airbag when it inflates. Infants are often the victims in rear-facing restraints and unrestrained infants are even more at risk.</i> | 4½minutes |
| Video #180 | Protecting Your Newborn (1997)
<i>Precious cargo, infants and newborns need special attention when transporting and this video explains in simple terms some of the many points in safely doing the job. Passenger protection for infants and the right location for those protective devices and some pointers on safety in the home, on airplanes and a primer on poison control.</i> | 26 minutes |
| Video #181 | The Back is Where it's at!
<i>A well-produced and informative video geared to young people but educational for all audiences. This video features Bill Nye, the Science Guy who explains and demonstrates the positive affects of using factory-installed safety belts and airbags. Using humor, young demonstrators and on-location shooting, he keeps the audience attention in a fast-paced monologue on safety restraints.</i> | 20 minutes |
| Video #608 | Willy Whistle Pedestrian Videos for Children
<i>Manual Included. Four videos featuring Willy Whistle deals with pedestrian safety for children.</i> | 17 minutes |
| Video #609 | Bus safety for Children
<i>Ten basic rules of safe bus riding are outlined by Scooby Doo and Yogi Bear at King's Island. Describes safe ways to wait, board, ride and leave a bus.</i> | 15 minutes |
| Video #610 | Kids and Airbags
<i>Tells how to protect youngsters in vehicles equipped with airbags.</i> | 5 minutes |
| Video #611 | Airbags and Children
<i>National Highway Traffic Safety Assoc. issues a safety warning on the dangers of airbags interacting with child safety seats. Focuses on the safest place for a child is the back seat.</i> | 9 minutes |

Communications (General)

****Also see Safety Orientations**

Video #7	Communications / Human Relations <i>Objective: To improve the supervisor's communications and motivational skills. Discusses the importance of "people skills", leadership and qualities of an effective leader.</i>	12 minutes
Video #8	The Hidden Customer <i>Communicating with employees: "I'm talking, you're not listening; "I'm listening, but that's not what you said." Safety, production and moral problems that exist because of poor communication</i>	18 minutes
Video #9	Do it Right <i>Supervisory communications training. Effective instructions improve productivity and safety.</i>	18 minutes
Video #148	The Basics; How to Communicate for Supervisors <i>The basic ways supervisors communicate with employees by: Speech, hands, eyes, and body language.</i>	5 minutes
Video #269	Effective Safety Meetings <i>Techniques are discussed for getting the most out of your safety meetings.</i>	7 Minutes
Video #356	Introduction to Behavior-Based Safety - The Series (Module 2) <i>Introduction to Behavior-Based Safety - The Series presents the founding principles of behavior-based safety and shows how this approach differs from other approaches to safety performance management. The videos show how traditional approaches to safety fall short of continuous improvement and introduce principles that allow organizations to achieve an injury-free culture.</i> <i>Module 2 – Behavior Analysis: Understanding the Causes</i> <i>Describes "ABC Analysis", a valuable tool for understanding the factors that influence behavior and how to use them to improve safety.</i>	25 minutes
Video #370	Avoiding Dog Bites <i>The video looks at several situations and talking with folks that will discuss behavior, dogs & humans, and how to avoid a bad situation.</i>	17 minutes

Confined Spaces

Video #103	Manhole Safety <i>This video, currently being used by OSHA for confined space training, points out five fatal accidents caused by employees not testing, purging and ventilating before entering a confined space.</i>	24 minutes
Video #104	Environmental Management <i>Objective: To familiarize supervisors with basic environmental issues. Discusses the importance of everyone's role in protecting the environment. Without everyone's involvement, it is a time bomb ready to explode at any time.</i>	12 minutes
Video #107	Confined Spaces <i>OSHA's requirements for safety and health when working in confined spaces. Defines confined space areas. Discusses procedures for testing, ventilating, permits, working, training, and personal protective equipments.</i>	20 minutes
Video #108	Confined Space Safety <i>This video will help you understand the hazards and risks associated with confined space including why accidents occur and hazard conditions.</i>	
Video #202	Confined Space Entry <i>Discusses OSHA regulations for confined spaces and looks at hazards such as atmosphere, engulfment and other serious hazards with confined spaces.</i>	29 minutes
Video #203	Confined Spaces (Safety Bite) <i>Looks at different types of confined spaces and the hazards associated with confined spaces.</i>	5 minutes
Video #352	Confined Space: Air Monitoring <i>This video focuses on the proper monitoring procedures and ventilation of confined spaces before entering, and the use of proper respiratory equipment if needed.</i>	10 minutes
Video #353	Confined Space Seminar (Part 2)	83 minutes
Video #354	Confined Space Seminar (Part 1) <i>This seminar was taped in 1988 and is a two part set totaling over 2.5 hours of run time. The seminar does a very thorough job of looking at all aspects of confined spaces. The seminar was conducted by Enmet Corporation and was filmed for educational purposes. Topics included in the two tape set are: atmospheric testing, gas detection instruments, state and federal safety standards, emergency response plans and procedures.</i>	74 minutes
Video #355	Confined Space Rescue <i>Following the latest OSHA standards and recommendations this is designed to help protect employees from the dangers of working within permit spaces. It also demonstrates safe rescue techniques since 60 percent of all confined space fatalities are rescuers. Areas covered include: Confined space entry, the rescue team, rescue team training, hazard recognition, equipment, technical rescue and teamwork.</i>	32 minutes

Disaster Preparedness

Video #11	Meeting the Challenge <i>Disaster preparedness at the local, state and federal level.</i>	25 minutes
Video #12	Tornado – Planning for Disaster <i>A tornado can sweep through and destroy everything in its path in just minutes. This Special Report will help you and your employees prepare for and survive the devastation of a tornado.</i>	10 minutes
Video #138	Funnel Facts; Myth vs. Fact Regarding Tornadoes <i>Outlines ways to protect you during a tornado & what to do after disaster strikes</i>	10 minutes
Video #157	Anthrax Awareness <i>This film defines anthrax, how it is transmitted, and the symptoms of anthrax, how exposure occurs and how to protect against anthrax exposure.</i>	13 minutes
Video #192	How to Develop a Hazard Mitigation Grant Program <i>A step-by step guide to developing and implementing a hazard mitigation program. Lightening the burden of damage caused by flooding, tornados and other disasters, a mitigation program needs to be used. This video spells out in several steps how to develop a program and how to use it if there is a disaster.</i>	10 minutes
Video #213	When Disaster Strikes <i>Covers natural and man-made disasters and is designed to help reduce fear and uncertainty through personal preparation and planning.</i>	22 minutes
Video #221	Winter Safety Tips <i>This video looks at proper dress, walking on snow & ice, shoveling, recreation activities, driving and fires from Christmas trees and lights and fireplaces.</i>	14 minutes
Video #224	Before the Storm <i>This film examines the four aspects of emergency management: preparedness, response, recovery and mitigation. Many disasters, such as flooding in southern Ohio, a tornado in Xenia, and a riot at the Lucasville Penitentiary are examined.</i>	25 minutes

Disaster Preparedness

Video #368

What To Do About Workplace Emergencies

17 minutes

This video is packed with vital information that your employees must know to ensure safety in a workplace emergency. This program focuses on establishing an Emergency Action Plan and written policies and procedures for this like: Earthquakes, fires, tornadoes, hurricanes, bomb threats, chemical spills, biological threats, workplace violence, and Bloodborne pathogens, Hazardous chemicals, MSDS and labeling, Fire-PASS and types of extinguishers, Emergency drills, planning and testing reporting.

Driving – Air Bags

Video #610

Kids and Airbags

5 minutes

Tells how to protect youngsters in vehicles equipped with airbags.

Video #611

Airbags and Children

9 minutes

National Highway Traffic Safety Assoc. issues a safety warning on the dangers of airbags interacting with child safety seats. Focuses on the safest place for a child is the back seat.

Driving – Alcohol / DUI

****Also see Alcohol & Drugs**

- | | | |
|-------------------|--|-------------------|
| Video #184 | Signal 30
<i>The automobiles look old and the commentator's voice is delivered with an ominous monotone, but the words still have the same meaning as today. Traffic laws addressing speeding and the use of alcohol. The crash scenes are stomach turning and graphic, and anyone who views this tape will experience an unforgettable sensation watching and listening to death, the screams of the seriously injured, the loading of a body bag. It's the highway of death like you probably won't see again.</i> | 22 minutes |
| Video #185 | Gray Night (1998)
<i>A car crash involving alcohol takes the life of the driver. This video follows a highway patrol trooper and his investigation of the crash, eventually finding the cause of the crash. The end result, an adult is charged with furnishing alcohol to juveniles, is prosecuted and sentenced to jail for contributing to the fatal crash. All the lives affected by this poor judgment are examined closely.</i> | 20 minutes |
| Video #186 | Family Gathering (1995)
<i>The story of a family that... "buried a secret". Told through the eyes of a young daughter, this compelling video examines an African American family whose father is a problem drinker and eventually it results in tragedy with an automobile.</i> | 4 minutes |
| Video #188 | Highways of Agony (1969)
<i>Extremely graphic – warn your audience first! This is an old but disturbing video, with a powerful message. We've come a long way with many improvements in safety features for automobiles, safety awareness programs, better highways and roads, and added law enforcement. However, there is still death and injury on our roadways and this film-to-video brings the message home in dramatic fashion.</i> | 20 minutes |
| Video #194 | One for Over the Line
<i>A crash scene is shown after a teen party and heavy drinking. It's a multiple crash with fatalities and serious injuries. A driver is arrested and charged with DUI. We watch the aftermath played out in details of agony and remorse.</i> | |
| Video #195 | Beyond the Bench (1996)
<i>The important role that judges play in the enforcement of impaired driving laws and helping to reduce juvenile DUI and alcohol violations is examined closely in this video.</i> | 17 minutes |
| Video #613 | Deadly Mixture
<i>Focuses on the costly consequences of driving under the influence of alcohol / drugs.</i> | 30 minutes |

Driving – Alcohol / DUI

****Also see Alcohol & Drugs**

Video #614	The Decision <i>The use of flashbacks helps a man discourage his friends from drinking and driving.</i>	11 minutes
Video #615	Reach Out <i>A true-life story of how drinking and driving affects a man and his family forever.</i>	9 minutes
Video #616	The Party's Over <i>This video uses a real-life tragedy to emphasize the affects of drinking and driving.</i>	20 minutes
Video #617	The Aftermath <i>Uses real life victims relaying their stories regarding drinking and driving accidents. Effective use of stories by surviving family members.</i>	24 minutes
Video #618	Reason to Live <i>This video focuses on how the same amount of alcohol affects everyone's performance differently.</i>	27 minutes
Video #619	DWI: A Day on America's Highways <i>This Video outlines a typical day on the road in terms of drunken driving accidents. Effective use of stories by surviving family members.</i>	45 minutes
Video #620	Drunk and Deadly (1986) <i>This video outlines a typical day on America's highways in terms of drinking and driving accidents in May of 1986.</i>	45 minutes
Video #621	So You Think You Can Drink and Drive <i>This video focuses on the severity of impairment in driving at the 0.10 legal limit of intoxication.</i>	22 minutes
Video #622	Final Choices; The Brad Shipman Choices <i>A true story that discusses how decisions can affect the rest of your life in terms of drinking and driving.</i>	15 minutes
Video #623	Taking the Lead <i>This motivational video encourages student leaders and teachers to institute safety belt and alcohol awareness programs in their schools & communities.</i>	13 minutes

Driving – General

- | | | |
|-------------------|--|-------------------|
| Video #189 | Mechanized Death
<i>Produced in 1961, this video is from an old film of automobile tragedies, which occurred because the drivers made bad decisions. This film is dated but still very potent in the message to drivers of all ages.</i> | 28 minutes |
| Video #190 | Ohio's License Plate Program
<i>A complete history of the license plate program in Ohio is presented in this video, with a detailed evolution of the license plate from early registration of a few motor vehicles, to the most modern registration and equipment process of today.</i> | 23 minutes |
| Video #191 | Helpful Tips for Parents of Teen Drivers
<i>The whimsical approach of this video helps illustrate what many parents must feel when their children reach driving age. When they begin to explore all the responsibilities that go with the privilege of driving an automobile.</i> | 15 minutes |
| Video #212 | Defensive Driving – Prepared For The Worst
<i>This program shows how to stay in control by being prepared for the worst including: nature's forces, night driving, breakdown basics, accidents, road construction and personal security.</i> | 18 minutes |
| Video #214 | Work Zone Safety for Construction & Utility Employees
<i>This video discusses work zone hazards, applicable regulations and standards, traffic control, equipment inspection and maintenance, channeling devices, flaggers, personal protective equipment, warning signs, and more.</i> | 18 minutes |
| Video #226 | Mature Driver (Safe Driving Skills) 2001
<i>This film addresses a dramatically increasing segment of today's society: mature drivers – 70 plus years of age need to take special precautions even for day-to-day driving situations. This film explores many of the seeming phenomena older drivers face on the roadways and highways. Being honest with yourself about any physical shortcomings is one of the most important issues addressed.</i> | 8 minutes |
| Video #232 | Motorcycle Rider Course
<i>A complete motorcycle rider training course, this video covers all the bases for developing safety motorcycle riding skills. (Controls, basic riding skills, street strategies, turning, braking and more!)</i> | 85 minutes |

Driving – General

Video #230	Streets of Fury; Road Rage in Ohio <i>Bad drivers have been around since automobiles were invented, but “road rage” as it has now been coined is a recent phenomenon that involves irrational behavior while operating a motor vehicle. Tailgating, cutting another vehicle off too quickly, obscene gestures by a motorist to another, and other activity can trigger “road rage” activity.</i>	18 minutes
Video #606	Car Care - Automotive First Aid and Safety <i>The guide of how’s and when’s of car maintenance. The video also outlines various safety features of your car including brakes, tires and safety belts.</i>	22 minutes
Video #607	Reduce Your Risk <i>An excellent video that shows how to reduce your risk of a crime while driving, parking, or walking to and from your car.</i>	15 minutes
Video #624	Is it Safe to Move? <i>This video outlines the rules and techniques when backing up a car or truck.</i>	8 minutes
Video #625	Road Rage <i>This video covers the rationale for keeping cool, calm and controlled in today’s stressful and potentially dangerous driving environment. Offers tips on how to keep anger in check and how to avoid becoming a victim of other driver’s “road rage.”</i>	
Video #626	A Matter of Time <i>Excellent video that stresses the importance of time in terms of following, passing and braking.</i>	10 minutes
Video #627	Seconds to Live <i>This video discusses safe driving habits, which include the “blind spots” on a car.</i>	27 minutes
Video #628	Avoiding Collisions; How to Survive the Teenage Driving <i>An excellent video that discusses why good communication is one of the keys to avoiding dangerous consequences when it comes to teenage driving.</i>	16 minutes
Video #629	The Ultimate Driving Challenge <i>This interactive program will put your driving safety skills to the test.</i>	48 minutes

Driving – General

- Video #630** **The Hidden Danger, Low Water Crossing** **9 minutes**
A National Weather Service video with a safety warning to motorists. Stresses how as little as 6 inches of water can cause a driver to lose control of the vehicle and 2 feet of water will carry most vehicles away.
- Video #646** **Valvoline National Driving test - Volume II**
Video test based on 25 different scenarios to test your driving skills.
- Video #648** **Sharing the Road with Big Truck** **12 minutes**
Driver's awareness and education required to drive the roads with big trucks.

Driving – Restraints (Seats & Belts)

Video #183	Options to Live 1960's <i>Even though this safety film made during the late 60's is dated chronologically, it sends a powerful message to the view with extremely graphic on-the-scene shots that will unsettle the steadiest soul. There was a time when this film was discontinued – it's back and because of its graphic nature it still has a powerful tremendous influence on the audience.</i>	25 minutes
Video #188	Highways of Agony <i>Extremely graphic – warn your audience first! This is an old but disturbing video, with a powerful message. We've come a long way with many improvements in safety features for automobiles, safety awareness programs, better highways and roads, and added law enforcement. However, there is still death and injury on our roadways and this film-to-video brings the message home in dramatic fashion.</i>	20 minutes
Video #193	Seatbelts Save Lives <i>Reenactment of a Toledo area automobile accident and testimonial from a person involved in the accident who's life was saved by wearing a seat belt.</i>	4½minutes
Video #632	It'll Never Happen to Me <i>A re-enactment of a news broadcast which stresses the importance of using seat belts.</i>	20 minutes
Video #633	Ride of Your Life? <i>This video uses a famous racecar driver to discuss the importance of wearing seat belts.</i>	24 minutes
Video #612	Protecting Your Newborn <i>Demonstrates correct infant and child restraint use, and how to protect children in vehicles with airbags</i>	4 minutes
Video #645	Precious Cargo: Protecting Children That Ride With You <i>This video provides information on proper use of child safety restraints while riding in a vehicle.</i>	

Driving – Winter

- | | | |
|--------------------|---|-------------------|
| Video # 254 | Winter Driving
<i>Expert stunt drivers demonstrate safe driving techniques on snow and ice.</i> | 12 Minutes |
| Video #644 | How to Survive Winter Driving
<i>How to prepare you car for winter driving. It also discuss how to drive during icy and snowy road conditions</i> | 13 minutes |
| Video #649 | Snowplow Safety
<i>This video can be used as a training guide. Topics covered include: Equipment Inspection, clearing entrances and exits, working with other snow removal equipment, special considerations for 24-Hr. operations. (Hospitals, etc.), and other areas.</i> | 19 minutes |

Electrical Safety

Video #5	Bucket Trucks I <i>An introduction to bucket trucks. Identifies major parts, safety devices and overrides, and visuals and operational checks. Geared toward electrical industry.</i>	44 minutes
Video #6	Bucket Trucks II <i>A continuation of Bucket Trucks I. Goes over the different types of bucket trucks and the safe operation in several different situations.</i>	52 minutes
Video #15	Electrical Safety <i>This video provides the valuable information employees need to work safely around electricity. Satisfies OSHA training requirements under 29 CFR 1910.331 (Electrical Safety Standard) for non-qualified employees.</i>	12 minutes
Video #16	Take Nothing for Granted <i>Electrical construction worker Harry Sparks makes one mistake and it costs him his life.</i>	19 minutes
Video #17	Firefighters and Electricity <i>This video stresses precautions that the firefighter should take when responding to an emergency involving electricity.</i>	10 minutes
Video #18	Solving the Mystery; Static Electricity <i>Uncontrolled static charge is the silent cause of problems ranging from annoying shocks to catastrophic explosions. This video educates employees on the dangers posed by static charges and shows how to minimize these dangers.</i>	13 minutes
Video #19	Electrical Safety in the Workplace (Manual Included) <i>To familiarize supervisors with basic electrical hazards and to encourage safe practices around electricity. Discusses the basic hazards associated with electricity and what you and your employees can do to improve safety around it.</i>	17 minutes
Video #139	High Impact Electrical Safety <i>Teaches electrical safety by using re-enactments of electrical accidents based on OSHA records.</i>	19 minutes
Video #152	Electrical Safety - Safety Bite <i>The hazards of electrical contact and electrical burns. Inspecting of tools for electrical hazardous conditions.</i>	5 minutes
Video #155	Seeing the Power of Electricity <i>Seeing and understanding the hazards associated with high and low voltage electricity.</i>	18 minutes

Electrical Safety

Video #173	Electrical - Working with Stray Voltage <i>Geared toward agriculture, this film defines stray voltage, describes the symptoms and effects of stray voltage on livestock and tells how to investigate and solve stray voltage.</i>	37 minutes
Video #174	Electrical - Ground Fault Circuit Interrupters <i>Details how ground fault circuit interrupters (GFCIs) overcome grounding and insulation deficiencies.</i>	13 minutes
Video #198	UL Appliance Safety Quiz <i>Video safety quiz - focusing on electric shock and fire hazards from appliances.</i>	25 minutes
Video #208	Electrical Emergencies – Proper Response <i>This video covers crucial information such as the three levels of electric shock, common causes and classifications of fire and proper first aid measures for victims of shock or smoke inhalation.</i>	13 minutes
Video #209	Electrical Safety – Basic Principles <i>This video shows you basic principles of electricity, safe work practices when working around electricity and correct emergency response procedures.</i>	15 minutes
Video #210	Electrical Hazards – Avoiding the Risk <i>This video discusses safe work practices that every electrical worker should employ in order to avoid risk of electrical shock or electrocution including: working with electrical circuits, proper grounding procedures, and controlling electricity by using proper lockout/tagout methods.</i>	12 minutes
Video #211	Electrical Safety – Working Around Live Circuits <i>This video is designed to provide vital lessons for unqualified electrical workers and discusses requirements and qualifications as specified by OSHA.</i>	7 minutes
Video #266	A Shocking Experience <i>Proper safety precautions for working with electricity are discussed.</i>	5 Minutes
Video #271	A Welcome Interruption <i>Describes the basic function and use of ground fault circuit interrupters (GFCIs).</i>	5 Minutes

Electrical Safety

Video #326	Electrical Awareness for Power Plant Personnel <i>This Detroit Edison training video uses reconstructions of past injuries to demonstrate how using wrong equipment or procedures can have disastrous results.</i>	12 minutes
Video #327	The ABC's of Digital Multimeter Safety <i>In this video, the audience will learn what the new international safety standards mean by overvoltage category in your work environment. They will also find out what to look for in a meter and how to tell if it is built to withstand the transients it will be exposed to. Also discussed are how proper work procedures and equipment can help protect a worker from hazards.</i>	20 minutes
Video #328	Managing Electric Power Systems <i>This video focuses on the importance of understanding the basics of power quality and energy system management, learning how to conduct a basic power management survey. It also gives specifics on how to make measurements needed to solve power problems and how to identify the right test tools to get the job done.</i>	20 minutes
Video #329	Shields of Safety – Electrical Protective Equipment <i>Personal protective equipment is essential to protecting employees from the hazards of electricity. This video shows the audience how personal protective equipment is manufactured, while also talking about proper use, inspection, care and storage. Protective equipment specifically mentioned are gloves, sleeves, insulator hoods, blankets and special line hose.</i>	16 minutes
Video #330	Electrical Maintenance <i>Deals with the dangers involved when working with low alternating currents, and educates the viewer as to the terminology and simple safety precautions to take when working around electrical devices.</i>	10 minutes
Video #338	Beware of the Bite <i>This video shows workers how to protect themselves from electrical shock and what to do if danger strikes. It includes topics such as conductivity, lockout/tagout, safe work practices, PPE and emergency response.</i>	20 minutes
Video #655	NFPA 70E Electrical Safety Arc Flash Safety for Employees <i>Under new OSHA requirements, the NFPA 70e places additional requirements on all organizations, to properly identify hazards and provide training for anyone who may work on, near or around electrical equipment. Some of the specific requirements discussed in this training video include introduction to understanding and reducing arc flash hazards, arc flash protection, arc flash personal protective equipment requirements, required signs and labeling, training, documentation, work permits and more. Basically this program will provide information to train employees in arc flash safety, meet OSHA requirements of the new NFPA 70E and help reduce the hazards associated with electrical arc flash and blasts.</i>	18 minutes

Ergonomics

****Also see Office Safety**

Video #20	Ergonomics <i>The study of people at work - trying to get a good "fit" between employee and the job. To familiarize supervisors with basic principles of ergonomics so they can recognize ergonomic problems, evaluate them, and suggest ways to correct them.</i>	12 minutes
Video #21	Industrial Ergonomics <i>Instruct employees to recognize common ergonomic problems in industrial environments and to apply practical solutions to those problems</i>	17 minutes
Video #96	Ergonomics: VDT <i>Deals with video display terminal, describes ways to decrease stress and fatigue when working on computers through ergonomics.</i>	11 minutes
Video #102	Ergonomics - The Human Factor <i>Suggestions for removing eye glare while working on Video Display Terminals. Discusses light radiation from VDT's, repetition and motion problems. This is a good safety training film for VDT users, done by AT & T.</i>	50 minutes
Video #285	Ergonomic Tools <i>Includes what is meant by the term ergonomics, what is CTS, and what can happen if ergonomic tools are used improperly.</i>	14 minutes
Video #286	Ergonomics: Job Safety Analysis <i>Game show video that has ergonomic Q & A to recognize potential problems, choosing the correct tools for the job and altering work areas to minimize body stress (Humorous).</i>	15 minutes
Video #287	Work Station Adjustment <i>Discusses proper workstation adjustment and its importance related to ergonomics.</i>	9 minutes
Video #288	Ergonomics Awareness <i>Encourages employees to be aware of ergonomic stressors at work and at home.</i>	9 minutes
Video #289	Computer Usage <i>Details ergonomic stressors including cumulative trauma injuries and back pain.</i>	11 Minutes
Video #290	Developing Ergonomic Systems <i>Learn how to design, implement and maintain an ergonomic program in your workplace.</i>	23 Minutes

Ergonomics

****Also see Office Safety**

Video #291	Ergonomics: What Employees Need To Know <i>Covers: What is ergonomics, musculoskeletal disorders, MSD signs and symptoms, common MSDs, risk factors and reporting.</i>	9 Minutes
Video #292	Ergonomic Assessment Training For Managers <i>Offers tips and practical guidelines for creating an ergonomics program in your individual workplace.</i>	21 Minutes
Video 293	Material Handling <i>Ergonomic hazards associated with material handling – including bending, lifting and twisting – are addressed.</i>	10 Minutes
Video #303	Repetitive Strain injuries <i>Safety short with tips on how to prevent repetitive strain injuries.</i>	5 Minutes
Video #304	Carpal Tunnel Syndrome <i>Discusses causes and symptoms associated with carpal tunnel syndrome.</i>	9 Minutes

Eye Protection

Video #110	The Eyes Have It <i>This video emphasizes how to protect your eyes in various work environments.</i>	14 minutes
Video #111	Let's Pretend - A Case for Eye Safety <i>A psychological and dramatic approach to the serious subject of industrial eye protection. It helps to convince the participants of the importance of eye safety.</i>	20 minutes
Video #115	Eye and Face Protection in a Lab <i>Deals with personal protection and equipment used in a lab setting.</i>	11 minutes
Video #116	In the Blink of an Eye <i>This video uses worker's experiences and expert advice to stress the importance of wearing eye protection.</i>	11 minutes
Video #273	Eye Injuries <i>Video shows the devastating results when eye protection is ignored.</i>	5 Minutes
Video #322	Eye Wash Stations & Safety Showers <i>Demonstrates how to use eyewash showers, types of eyewash stations and proper locations.</i>	8 minutes
Video #367	My Precious Eyes- The Gory Story <i>Seventy percent (70%) of eye injury victims are hit with flying objects smaller than a pinhead. In this high impact gory story video about eye protection, we discuss diseases of the eye, approved eye protection, and eye injury prevention. This graphic video shows a variety of eye traumas, eye diseases, and downright motivating scenes of eye injuries. It is guaranteed to make a lasting impression on your employees about the importance of taking care of their eyes both at work and off the job.</i>	13 minutes

Fall Protection

Also see Slips, Trips & Falls

Video #64	Getting Right at Height (Manual Included) <i>Addresses: ladders, scaffolding, elevated & suspended work platforms, safety on roofs & other structures. The correct choice, use & maintenance of personal fall protection equipment. May be use as a two-hour training tool or as a supervisor's manual.</i>	20 minutes
Video #68	Fall Protection – What's Required & Beyond <i>Details OSHA Subpart M regulations and other safety measures for fall protection.</i>	22 minutes
Video #69	Fall Protection Guidelines <i>Hazard ID - written plan - training.</i>	16 minutes
Video #71	Harness Donning <i>Use of harnesses: Selection, Inspection, Donning, Maintaining & Storing</i>	22 minutes
Video #142	Inspection, Care and Storage of Slings <i>Pre-use checks, care for equipment, performing periodical inspections and safe storage of slings and accessories.</i>	15 minutes
Video #161	Personal Fall Protection - Hook-up <i>Covers OSHA's fall protection regulations including: the types of personal fall protection systems, which systems should be used, equipment anchorage, tie-offs use, rescue of fallen workers and equipment care and selection.</i>	18 minutes
Video #205	Personal Fall Protection – One Step Beyond <i>This video looks at the OSHA fall protection standard, types of fall protection, how to determine which system should be used, equipment anchorage, tie offs, use, rescue and equipment maintenance and inspection.</i>	13 minutes
Video #312	Harness Donning & Safety <i>Proper harness donning procedures for the Rose Pullover harness.</i>	13 minutes
Video #653	Elevated Fall Protection <i>Falls are a major cause of death to individuals working at elevated heights. Learn how a fall protection plan, guardrail inspections and fall restraints and arrest devices can save your life while working on various types of elevated platforms.</i>	12 minutes

Fall Protection

Also see Slips, Trips & Falls

Video #1102

Fall Protection Kit

A training program for employees

(Full training kit)

Fire Prevention

Video #17	Firefighters and Electricity <i>This video stresses precautions that the firefighter should take when responding to emergency involving electricity.</i>	10 minutes
Video #22	The Invisible Enemy <i>Dramatically reviews potential hazards, safety procedures, and equipment required in connection with flammable liquids. Narrated by the "devil".</i>	17 minutes
Video #23	How to Handle Flammables <i>This video illustrates proper techniques for storing, handling and transporting flammable materials with special emphasis placed on "bonding" and "grounding". A part also teaches your employees basic medical procedures for helping accident victims.</i>	18 minutes
Video #24	Flammable & Non-flammable Compressed Gasses <i>This important chemical safety video can help employees reduce the risk of a gas explosion by showing them a variety of proper handling procedures. Special emphasis is placed on oxygen.</i>	15 minutes
Video #25	Cutting, Welding & Brazing <i>Discusses safety procedures to prevent injuries due to fires, explosions, hot metals and other hazards. Personal protective equipment needed and the storage, handling and use of gas cylinders and electric welding equipment are covered.</i>	24 minutes
Video #26	Fire Safety <i>Outlines emergency planning, fire triangle, fire prevention, source of ignition and classes of fire extinguishers.</i>	11 minutes
Video #27	Fire and Extinguishers <i>Explanation of the fire triangle and the proper extinguishers for the type of fire.</i>	17 minutes
Video #28	Fire Safety <i>Enables supervisors to work with their employees to prevent fires by recognizing fire hazards and establishing preventative measures, and if a fire occurs, to respond appropriately to it. Discusses how to prevent fires and what to do if one occurs.</i>	12 minutes
Video #29	Flammable Liquids <i>Safe containment of flammable liquids by use of flame arrestors.</i>	21 minutes

Fire Prevention

Video #144	Fire Safety <i>Details how a fire starts, ways to prevent fires, and fire safety tips including how to use a portable fire extinguisher.</i>	12 minutes
Video #160	Fire Protection / Electrical <i>Covers the basics of fire protection plus ABC fire extinguishers with a focus on electrical fire protection.</i>	5 minutes
Video #166	Fire Prevention & Safety (Humorous) <i>Covers the ways that fire can start, how to prevent fires and how to appropriately react when a fire breaks out.</i>	17 minutes
Video #168	Fire Protection - Spiral to Disaster <i>Recounts the events that unfolded in the fiery destruction of an off shore oil platform that results in the loss of 165 lives and covers what procedures and equipment should have been in place to prevent or mitigate the disaster.</i>	24 minutes
Video #196	Dormitory Fire Protection (2002) <i>A flash over video timing how long it takes a fire to spread in a dormitory room. Examples of rooms with sprinklers and without are shown. This video does not contain audio.</i>	8 minutes
Video #207	Fire Protection (2001) <i>Flash over video that times how long it takes a fire to spread. Three scenarios; a Christmas tree, a living room and a business office are show. This video does not contain audio.</i>	11 minutes
Video #309	Fire Extinguishers – Fight or Flight <i>Shows the experiences of untrained people who try to put out small training fires with portable fire extinguishers.</i>	16 minutes

Fire Prevention

Video # 318	Fire Hazard Recognition <i>Helps employers identify and correct fire hazard conditions and help reduce the risk of a fire.</i>	8 minutes
Video #319	Fire Extinguishers <i>Describes classes and uses of fire extinguishers, inspections, PASS Method, when to call the fire department and knowing escape routes.</i>	8 minutes
Video #320	Fire Prevention <i>Discusses common causes of fires and how to control them.</i>	14 minutes
Video #1100	Fire Safety Kit <i>There's no second chance.</i>	(Full training kit)

Forklifts and Backhoes

<p>Video #32 KIT</p>	<p>Forklift Safety - 2 videos with leader guide</p> <ol style="list-style-type: none"> 1. Forklift Fundamentals: <i>Describes the different kinds of forklifts, car vs. forklift, controls and instrumentation and other areas.</i> 2. Forklift Operations: <i>Covers the operating conditions and the special hazards that vary with each job.</i> 	<p>37 minutes</p>
<p>Video #33</p>	<p>Forklift Truck / Pedestrian Safety</p> <p><i>Focuses on the conflict in operating a forklift in areas where there are pedestrians.</i></p>	<p>7 minutes</p>
<p>Video #162</p>	<p>High Impact Forklift Safety</p> <p><i>Uses re-creations of actual forklift accidents from OSHA's files to support the rules for the safe operation of powered industrial trucks.</i></p>	<p>19 minutes</p>
<p>Video #164</p>	<p>Backhoe Safety and Operation</p> <p><i>Basic safe operation of backhoes plus safety features, personal protective equipment needed for backhoe operators and backhoe inspection.</i></p>	<p>8 minutes</p>
<p>Video #204</p>	<p>Forklift Safety</p> <p><i>This video gives a review of the safe operating procedures involved with forklift operations.</i></p>	<p>16 minutes</p>
<p>Video #246</p>	<p>Warehouse Safety (Forklift)</p> <p><i>Uncovers general hazards associated with warehouse work including forklifts.</i></p>	<p>9 Minutes</p>
<p>Video #317</p>	<p>Forklift Safety Inspections</p> <p><i>Two parts 1. Covers inspections of forklifts. 2 Covers the safe operation of forklifts.</i></p>	<p>28 minutes</p>
<p>Video #1200 KIT</p>	<p>Forklift Operators Training</p> <p><i>This program will satisfy the classroom portion for certifying your forklift operators. Includes: Videos, transparencies, manual and a test to copy.</i></p> <p>***Forklift Operator Workbooks can be purchased through the Safety Council. These workbooks work in conjunction with the training kit and certification cards are enclosed in the book.</p>	<p>\$50 per week</p>

General Safety; Off -the-Job

Video #36	Safety Talk Series <i>12 Five-minute segments, on different topics, showing dramatizations on ways to improve safety on the job and off.</i>	60 minutes
Video #133	Winter Walking <i>Shows the dangers to postal employees when walking their routes through ice and snow.</i>	10 minutes
Video #222	Home Indoor Air Quality <i>This video discusses the risks of indoor air pollutants and what can be done to prevent or reduce exposures to them.</i>	13 minutes
Video #315	Machine Shop Safety <i>Emphasizes work practices, wearing appropriate PPE and stresses good housekeeping practices.</i>	9 minutes
Video #371	Holiday Safety: At the Top of Your List <i>During the holidays, it's easy to let your guard down as you enjoy the festivities. It may be the season to be jolly, but it can easily turn into the season of folly and dangerous accidents. This unique program shows you and your employees how to have and savor a safe holiday season.</i>	17 minutes
Video #901	Safety for Seniors <i>Outlines various potential hazards in their homes and offers easy & inexpensive repairs for them.</i>	25 minutes
Video #902	Danger...Summer Ahead <i>Humorous incidents around the home with grills, mowers, swimming, camping, etc.</i>	17 minutes
Video #904	Childsafe <i>A room-by-room exploration detailing how to make your home "child-safe".</i>	30 minutes
Video #905	Winter Survival in the Bush <i>Survival during the winter months including car stops, medical emergencies, hiking, etc., with actual survival methods demonstrated.</i>	20 minutes

General Safety; Off -the-Job

Video #906	Towards a Drug Free America <i>Uses commercials form television to change attitudes regarding drug use and abuse.</i>	13 minutes
Video #909	Preventing Child Abduction <i>Covers how you can keep your child safe from would be abductors, even if you're not with them.</i>	5 minutes
Video #910	In-Line Skating Safety Tips <i>Safety Tips from Kristi Yamaguchi, a pro skater.</i>	8 minutes
Video #911	A Safe Ride <i>A portfolio of educational pieces intended to increase awareness of the safe and proper way for the public to ride elevators, escalators and moving walks.</i>	12 minutes

General Safety; On -the-Job

Video #10	<p>Construction Safety Essentials</p> <p><i>A video and training guide covering the existence of workplace hazards on site, effective ways of reducing and how well personnel know their work areas.</i></p>
Video #34	<p>High Impact Safety Awareness 20 minutes</p> <p><i>A general Safety Video geared toward industry that recreates accidents that can occur working with machinery, hazardous materials, confined space, electrical and more.</i></p>
Video #35	<p>Disablers 10 minutes</p> <p><i>Discusses the 4 types of disablers: 1) Mishandler - sprain & strains; 2) Tripper - falls from some level or different level; 3) Hitter - struck by object; 4) Mangler - Hand injuries</i></p>
Video #36	<p>Safety Talk Series 60 minutes</p> <p><i>12 Five-minute segments, on different topics, showing dramatizations on ways to improve safety on the job and off.</i></p>
Video #153	<p>The Dark Ages of Safety 12 minutes</p> <p><i>Over the years, safety attitudes, personal protection, ergonomics, safety rules, etc., have changed to make a safer work environment.</i></p>
Video #169	<p>General Safety - The Dark Ages of Safety 16 minutes</p> <p><i>A humorous look back at a time when occupational safety was not considered important and compares the early days with today's safety programs and policies and tells how we can continue to improve the safety of our job.</i></p>
Video #229	<p>Violence in the Workplace 15 minutes</p> <p><i>This video will help your employees recognize and avoid or diffuse potentially violent behavior.</i></p>
Video #231	<p>Threat Assessment for Envelopes & Packages: Ohio Task Force 30 minutes</p> <p><i>This video examines mail handling, sorting, and distribution in light of the tragic events of September 11th, 2001 in New York, Washington D.C. & Pennsylvania. Step-by-step guidelines for mail handlers and safety tips to guard against terrorist threats.</i></p>
Video #247	<p>Prevention of the Most Common Accidents 10 Minutes</p> <p><i>In this "Get Smart" format, "Agent Fax" and "Agent 29" meet "Tool Time" helper "Hal" who helps employees understand how potential accidents are recognized (Humorous)</i></p>

General Safety; On -the-Job

Video # 253	No Shortcut To Safety <i>Lecture by Randy Fellhoelter on his near death accident. He came into contact with 7200 volts reaching for an electrical line he believed was turned off. Includes graphic pictures.</i>	73 Minutes
Video #256	Hazard Recognition: Out of the Ordinary <i>This video shows how identifying a hazard is a key to maintaining safety.</i>	12 Minutes
Video #257	Power to Change: Employee Module <i>Takes a close look at workers' attitudes toward safety and how that attitude impacts their job.</i>	11 Minutes
Video #258	Power to Change: Supervisor Module <i>Takes a close look at workers' attitudes toward safety and how that attitude impacts their job.</i>	20 Minutes
Video #259	Speak Up! Commit to Give Feedback <i>Helps employees overcome their fear and anxiety, and learn how to give safety-related feedback to those around them.</i>	10 Minutes
Video #261	Stress in the Workplace <i>Discusses causes of workplace stress and strategies for dealing with it.</i>	5 Minutes
Video #263	Violence in the Workplace <i>This video trains on recognizing the potential for violence and knowing what to do in the event of an attack.</i>	5 Minutes
Video #265	Amputation Injuries <i>Discusses prevention, treatment and long-term care of amputation injuries.</i>	5 Minutes
Video #275	Heads Up for Safety <i>The importance of keeping an eye out and up for hazards is shown.</i>	5 Minutes
Video # 277	Creating the Safety Plan Pts. 1 & 2 <i>Dramatization 1950s style as developing a safety plan and leading employees' involvement in a safety plan are discussed.</i>	11 Minutes ea.

General Safety; On -the-Job

Video #278	What the ISO Standards Mean to Safety Managers <i>Describes the concepts, focus and benefits.</i>	9 Minutes
Video #279	Safety Committee Participation <i>Describes roles, goals and objectives of safety committees.</i>	10 Minutes
Video #281	The Importance of Safety <i>General video on importance of workplace safety including compliance with standards and economic benefits.</i>	11 Minutes
Video #282	Coaching Safe Behavior Part 1 & 2 <i>Reviews safety behavior that should be considered on-the-job.</i>	10 Minutes & 7 Minutes
Video #283	Safety Awareness <i>Covers why accidents occur, responsibilities, safety policies, safe work procedures and more.</i>	22 Minutes
Video #284	The Wake Up Call <i>Offers a dramatic look at close calls and near misses – an important safety topic that is often overlooked.</i>	14 Minutes
Video #295	Material Handling and Storage <i>Details safe material handling & storage procedures by both manual and mechanical means.</i>	9 Minutes
Video #306	Shiftwork – Circadian Survival <i>Aids shiftworkers with discussion on proper rest, fatigue on the job and family stress.</i>	20 Minutes
Video #368	What to do about Workplace Emergencies <i>Preparing for workplace emergencies is discussed in this video. It talks about how to prepare an Emergency Action Plans that cover fire, tornados, evacuation routes, man-made emergencies, and others emergencies that may occur in the work-place. It also covers fire extinguishers, elevators, stairwells, and emergency exits.</i>	17 minutes

General Safety; On -the-Job

Video #360 **Lab Safety for Non Laboratory Personnel** **12 minutes**
Know and understand the safety measures that need to be executed on the job.
Follow good housekeeping practices.

Video #376 **Facts About OSHA Inspections**

Hand Safety

Video #42	Hand and Wrist Injuries <i>Discusses hand injuries, cuts, bruises, lacerations, and amputations. Also discusses wrist carpal tunnel.</i>	10 minutes
Video #43	Think Before You Reach <i>Discusses hand and finger injuries. The video shows some very graphic pictures of hand and finger injuries, this video should be previewed before showing your group.</i>	15 minutes
Video #44	Danger Zone, Your Hands <i>Outlines different types of accidents that can cause serious hand injuries.</i>	20 minutes
Video #264	Where are your Hands? <i>This safety short video outlines the “dos” and “don’ts” of hand safety.</i>	5 Minutes
Video #372	Hand Injury Prevention: In Touch with Safety <i>Avoid hand injuries and eliminate the associated costs of lost-work time, lower productivity and insurance claims. We developed this program for DuPont Merck for those reasons. The program includes footage from a variety of facilities and is appropriate for all workers. It covers: glove selection, safe handling of glass and sharp objects, use of tools and equipment, first aid.</i>	17 minutes
Video #373	Hand Safety <i>What would you do without your hands? How would losing or severely damaging one or both hands affect your life? This program asks that question straight out, reminding each viewer of the personal, long-term consequences of taking hand safety for granted.</i>	18 minutes

Hazard Communications

Video #47	Hazard Communications <i>Objective: To enable supervisors to understand the employer's and employees training and safety obligations under the Hazard Communication Standard. Discusses the Hazard Communication Standard and the compliance mandates.</i>	12 minutes
Video #48	Workers Right to Know <i>Hazards communications solutions.</i>	12 minutes
Video #49	The Hazard Communication Solution <i>This video talks about the data taken and the proper procedures that should be followed in the workplace in the event of an accident.</i>	11 minutes
Video #151	The Road to Safety <i>STOP, LOOK, and LISTEN! Just like the warning signs on the road. Warning labels provide information to keep workers on the road to safety.</i>	16 minutes
Video #158	Hazard Communication <i>Discusses the training requirements of OSHA's Hazard Communication Standard. Explains various physical and health hazards and how to use warning labels and MSDS's</i>	8 minutes
Video #244	HazCom Reducing Exposure <i>Gives examples and reviews PELs and MSDSs for chemical exposure.</i>	10 minutes
Video #296	Common Toxicology Terms of a MSDS <i>Discusses terms such as toxicity, LD 50, LC 50, exposure limits and physiological effects.</i>	11 Minutes
Video #297	Right to Know: Workers and The Community <i>An awareness of the potential dangers and responsibilities when workplace chemicals enter into the surrounding community.</i>	13 Minutes
Video #351	HAZCOM: Acids and Caustics <i>This video discusses what type of PPE should be worn when working around corrosives, what to do when splashed by acid, and what type of damage corrosives do to skin.</i>	17 minutes

Hazardous Materials

Video #50	An Employee Guide to Working with Hazardous Chemicals 16 min <i>This video outlines a comprehensive hazard communication program, including training to OSHA requirements, MSDS, protective equipment, and how to handle an emergency.</i>
Video #51	Chemical Handling 14 minutes <i>Hazardous materials are used in almost every industry. These materials are extremely important and extremely dangerous. Includes: What are flammables & combustibles. Labeling / MSDS, ignition and storage.</i>
Video #52	How to Handle Corrosives 14 minutes <i>Outlines major precautions for dealing with corrosives, highly acidic or alkaline chemicals. Special emphasis is placed on the dangers of loading corrosive liquids next to flammable solids, oxidizing materials, ammunition, or propellant explosives.</i>
Video #53	How to Handle Solvents 15 minutes <i>A physician and two university professors explain from different perspectives how solvents - and their vapors pose multiple hazards in the workplace. This video will help your employees understand how to reduce exposure</i>
Video #54	First on the Scene 30 minutes <i>Key points to follow when you're the first responder of a hazardous materials incident.</i>
Video #55	Hazardous Substances 13 minutes <i>Discusses hazardous substances found on a construction site and ways to protect workers. Reading labels and understanding MSDS</i>
Video #105	Safe Today . . . Safe Tomorrow 12 minutes <i>OSHA Regulations for emergency showers around chemicals.</i>
Video #140	Safe Handling of Compressed Gas Cylinders 5 minutes <i>Safety Short: Shows safe handling, labeling, marking, transportation / movement and storage of compressed gas cylinders.</i>

Hazardous Materials

Video #197	Haz-Mat for Everyone <i>Introduces the basics of Haz-Mat regulations and answers questions such as: What are hazardous materials? Who uses hazardous materials? What are hazard classes? What is 49CFR? What are those labels and place cards?</i>	13 minutes
Video #248	Hazwoper Awareness Level <i>Understand your role as First Responder of emergency involving hazardous substances. Know how to recognize an emergency, the critical characteristics of an emergency, how to report and securing the scene.</i>	14 Minutes
Video #249	HazMat Spills – Are You Ready? <i>Who is responsible for handling a chemical spill, how you can recognize a chemical spill, what should you do if you recognize an emergency situation, and how can you keep a spill from happening.</i>	6 Minutes
Video #297	Right to Know: Workers and The Community <i>An awareness of the potential dangers and responsibilities when workplace chemicals enter into the surrounding community.</i>	13 Minutes
Video #340	Asbestos: Awareness Exposure <i>OSHA has set guidelines for assessing, working with, and permissible exposure levels to asbestos. This video looks at several topics, such as: why asbestos was used in older homes and factories; when asbestos poses a health problem; and before asbestos-related work begins; what OSHA requires to be done to protect workers.</i>	10 minutes
Video #250	Small Spill Cleanup <i>Who is responsible for formulating and signing off on a spill cleanup program and what is the purpose of a spill contingency plan.</i>	18 Minutes
Video #321	HAZWOPER Role of the First Responder <i>Discusses the responsibilities of first responders who deal with hazardous materials.</i>	9 Minutes
Video #350	Chemical Emergency Preparedness & Procedure <i>Most spills happen during the transfer of chemicals. It is vital the spill is reported immediately and cleaned up properly. This video discusses the importance of knowing what the chemical is and how to properly take care of the spill.</i>	11 minutes

Hazardous Materials

Video #363

Resource Conservation & Recovery Act (RCRA)

8 minutes

This video details the origin and development of the federal laws regulating hazardous waste. It details requirements outlined in the RCRA act, as well as defines classes of hazardous waste generators and what needs to be done in order to comply with federal laws.

Hearing / Noise

Video #206	Hearing Conservation (2003) <i>This video will show you how to determine noise hazards as well as testing, training requirements and the different types of hearing protection that can be used.</i>	12 minutes
Video #227	Preventing Hearing Loss <i>This video discuss the anatomy of the ear, the hearing process, Decibel levels from common sources, Symptoms of noise-induced hearing loss and proper types of PPE.</i>	11 minutes
Video #365	Hearing Safety <i>The importance of protecting an employee's hearing is the focus of this video. It has an overview of hearing loss, and also interviews two specialists who discuss how hearing loss occurs.</i>	14 minutes
Video #366	Hearing Safety <i>Motivates workers to protect their hearing by explaining what causes hearing loss and shows how the ear works. Effects of noise and types of ear protection are also covered.</i>	14 minutes

Heat Stress

Video #58	Heat Stress - Dehydration & Electrolytes <i>Geared around the Ohio State Football team, this video discusses preventative measures to avoid heat stress.</i>	45 minutes
Video #165	Sun Safety <i>Details the damage and effects of UV radiation and overexposure to the sun plus defines melanoma and skin cancer and covers prevention and safety techniques. Ideal for those who work outside.</i>	11 minutes
Video #176	Heat Stress <i>This film will assist in the understanding of physical stress placed on the body from working in a hot environment, recognizing symptoms of heat stress disorders and how to take the proper precautions to lessen or eliminate the stresses.</i>	16 minutes
Video #310	Heat Stress <i>Definition, causes, symptoms and control measures are discussed.</i>	10 Minutes
Video #311	Heat Stress Prevention <i>Covers what heat stress is, preparing for heat stress, heat stress disorders and effects and safe work practices.</i>	12 Minutes

Hotworks

Video #149	Hot Work Management <i>Welding, cutting and brazing. Controlling hot work to reduce losses by controlling the hot work, being aware of hazards, taking fire precautions and handling emergencies effectively.</i>	15 minutes
Video #201	Welding, Cutting & Brazing <i>This video examines the hazards and controls specific to gas welding and arc welding.</i>	26 minutes
Video #325	Welding & Cutting Safety <i>This video discusses the care that is needed to reduce the probability of fire while welding and cutting. Also discusses some common gases and fumes produced during welding operations.</i>	10 minutes
Video #333	Safe Handling of Compressed Gases <i>Compressed gases have many uses, but can be dangerous if handled improperly. This video focuses on the knowledge and training that is essential to the proper handling of these gases. Topics include: labeling and markings, testing, valves and safeties, storing, handling, and regulators.</i>	20 minutes
Video #369	Welding Safety <i>This video covers hazards that welders will be faced with frequently in the work place. Areas of focus are light, fumes, heat and noise hazards. Proper use of PPE is discussed, as well as steps that can be used for fire prevention.</i>	14 minutes

Housekeeping

Video #60	Keep it Clean <i>Creating a safer place to work by good housekeeping skills. Discusses area of work, office and home where good housekeeping can reduce hazardous conditions.</i>	9 minutes
Video #61	Stash the Trash <i>Oscars poor housekeeping practice cause accidents in the workplace.</i>	10 minutes
Video #245	Custodial Staff Safety <i>Addresses hazards and safe work practices of custodians including slips, trips and falls, lifting and electrical hazards</i>	10 Minutes

Ladders - Scaffolds - Cranes

Video #64	Getting Right at Height (Manual Included) 20 minutes <i>Addresses: Ladders, Scaffolding, Elevated & Suspended work platforms, Safety on roofs & other structures. The correct choice, use & maintenance of personal fall protection equipment. May be use as a two-hour training tool or as a supervisor's manual.</i>
Video #65	Crane Safety - 3 videos in 1 22 ½ minutes <i>Common Sense Crane Safety 12 minutes; Responsibilities and maintenance 5:30 minutes; International hand signals for operating a crane 5 minutes; Proper crane set ups and use of load</i>
Video #66	Ladder Safety Training 18 minutes <i>Ladder Safety discusses choosing the right ladder, inspecting the ladder, setting the ladder up properly, securing the ladder and facing the ladder when climbing. Covers OSHA's ladder requirements.</i>
Video #67	Ladder Safety 11 ½ minutes <i>This video explains the dangers and demonstrates the safe use of various types of ladders and portable steps. A lack of ladder safety can put an end to the game ... and your life.</i>
Video #70	Know How to Rig Safely 12 minutes <i>Use of slings, chains, and equipment used in lifting. Cover inspection slings, shackles, clevises and how to connect U-bolts. Taped in a construction setting.</i>
Video #72	Getting to the Top - Safe Use of Ladder 12 minutes <i>Objectives: Discusses types of ladders, proper type for a specific task, safety guidelines, inspection and maintenance, potential hazards, and action to be taken if ladder is defective.</i>
Video #141	Safe Operation of Overhead Cranes 20 minutes <i>Show proper sequence for safely operating overhead cranes. Pre-operational and operational checks, planning the lift, operational rules and shutdown procedures.</i>
Video #150	Ladder Safety - Safety Bite 5 minutes <i>Safe use of step and extension ladders.</i>

Ladders - Scaffolds - Cranes

Video #177	Scaffolding <i>Provides an overview of OSHA's scaffolding standard and helps employees to learn how to spot scaffolding violations and how to recognize and avoid scaffold-related hazards.</i>	17 minutes
Video #223	Cranes, Chains, Slings & Hoists <i>This video covers practices for inspection, maintenances and safe use of lifting devices.</i>	12 minutes
Video #252	Latching Program <i>This video details the proper procedures for locking and latching extension ladders and discusses 'wedging'</i>	13 Minutes

Lifting - Back Safety

Video #73	Safe Lifting for Industry <i>The video helps prevent back injury by explaining: How your back works, How to use it correctly, How to keep your back in good shape through regular exercise and a healthy lifestyle.</i>	20 minutes
Video #74	It's Your Back <i>This video outlines the prominence of back problems in our country and what we can do to prevent them.</i>	15 minutes
Video #75	Material Handling - Lifting <i>To assist in controlling material handling and storage. The video discusses lifting techniques to prevent "that aching back." Also covered are other material handling methods such as using hand trucks and powered industrial trucks.</i>	12 minutes
Video #76	Why Take the Risk <i>This back problem prevention video asks . . . Why Risk? Back safety video demonstrating proper lifting techniques and other recommendations on how to keep a healthy back.</i>	8 minutes
Video #77	Prevention Back Injuries <i>This video discusses why good common sense can prevent most back injuries. Most accidents are caused by improper lifting techniques, and this video shows you the correct way to lift along with strengthening exercises.</i>	24 minutes
Video #78	Lifting Techniques: Avoiding Back Injuries <i>Discusses how poor judgment, improper technique, poor posture and poor physical condition can lead to back injuries. Outlines the basics of good lifting and provides exercises to help prevent back injuries.</i>	18 minutes
Video #167	Back Protection - Defending Your Safety Zone <i>Looks at how your back works, body mechanics, zone defense, proper grasping and lifting techniques, how to avoid repetitive stress and mechanical advantage.</i>	19 minutes
Video #114	Safety Expressway '92 <i>A company safety film covering personal protection equipment and lifting. A.B.C. "Always Be Careful. A promotional film.</i>	5 minutes
Video #272	Workers Enemy #1 <i>This video explains how to avoid back injuries through a few common sense practices.</i>	5 Minutes

Lifting - Back Safety

Video #341	American Back School – 5 Reasons (Part 1) <i>What causes back pain? This video looks at the five factors in the back that can cause pain. Items examined in this video are: discs, disc pressure, ligaments, muscles, and weight lifters.</i>	23 minutes
Video #342	American Back School – Risk Factors (Part 2) <i>Items that can be risk factors to back pain and injury are discussed in this video. Items identified are: lifting, sitting, using lower back supports, nutrition, smoking cessation, stress and fitness.</i>	20 minutes
Video #343	American Back School – Activities of Daily Living (Part 3) <i>Everyday activities, often done without thinking about them, can let to back pain. Proper techniques will be identified in this video for the following: reaching, bending, pushing, twisting, carrying, pulling, lifting overhead, mopping, vacuuming and scrubbing. Also mentioned are proper posture and rest.</i>	19 minutes
Video #344	American Back School – Stretching (Part 4) <i>This video demonstrates various stretching exercises to properly loosen up the back.</i>	13 minutes
Video #345	American Back School – Strengthening (Part 5) <i>This video demonstrates various exercises to strengthening the muscles in the back.</i>	18 minutes
Video #347	Save A Back <i>Ergonomics are important to preventing back injuries in the workplace. This video looks at who is doing the work and what the work is. Areas of focus are: proper posture, proper body mechanics, flexibility and physical fitness.</i>	15 minutes
Video #346	Back Safety: Belt Use <i>Proper use of back belts begins before workers begin using them. It is essential belts are designed for the user and the job. Training the user regarding use and misuse is also important.</i>	7 minutes

Lockout / Tagout

Video #79	You are the Key - Lockout / Tagout <i>An excellent video that identifies potential accidents and / or hazards, and outlines the proper Lock Out / Tag Out procedure before performing maintenance activities.</i>	15 minutes
Video #80	Machine Guarding <i>Each year, workers lose fingers, hands and arms; some even die because a machine was never safeguarded, or the guard was removed for convenience. Covers many areas of machine guarding.</i>	14 minutes
Video #81	Working with Machinery <i>Making the employee safe, and the machinery safe to work with. Using personal protective equipment around machinery pinch points. Outlines the importance of maintaining employee physical condition as well as equipment maintenance.</i>	17 minutes
Video #82	Machine Safeguarding <i>Objective: To identify mechanical hazards before accidents occur to implement mechanical safeguarding program. Discusses the need to safeguard machines.</i>	12 minutes
Video #83	Lockout for Safety, Lockout for You! <i>An employee training videotape that addresses issues regarding punch presses and related injuries.</i>	23 minutes
Video #171	High Impact Lockout / Tagout <i>Using re-creations of lockout/tagout accidents, this film will help employees understand the general safety practices and procedures for lockout / tagout.</i>	22 minutes
Video #357	Lockout/Tagout: A Life in on the Line <i>Locking out is a way of removing unwanted energy sources. Tags help remind everyone that a life is on the line and identifies the owner of the lock. It is vital locks and tags are removed by the person who put them on and only when the job is done and the area is clean and clear.</i>	7 minutes
Video #654	Lockout / Tagout <i>Topics include: what types of devices are used in lockout/tagout, what is one of the first steps in lockout/tagout, what responsibilities do people who do lockout/tagout have, what does a lockout device do, what is the role of a tagout device, and what are some key steps in lockout/tagout.</i>	8.5 minutes

Machine Guarding

Video #332

Machine Cutting, Grinding & Sanding

7 minutes

Cutting, grinding and sanding can be safe if you follow procedures and concentrate on the task. When around heavy machinery, failing to concentrate can be your worst enemy. This video covers the dangers and precautions to take when working with this kind of machinery.

Medical - Health - First Aid

Video #42	Hand and Wrist Injuries <i>Discusses hand injuries, cuts, bruises, lacerations, and amputations. Also discusses wrist carpal tunnel.</i>	10 minutes
Video #43	Think Before You Reach <i>Discusses hand and finger injuries. The video shows some very graphic pictures of hand and finger injuries, this video should be previewed before showing your group.</i>	15 minutes
Video #44	Danger Zone, Your Hands <i>Outlines different types of accidents that can cause serious hand injuries.</i>	20 minutes
Video #84	EMS - Making the Right Call <i>Delivers many messages about first responders to medical emergencies, including information to provide the emergency operator, why proper use of EMS is crucial & others</i>	7 minutes
Video #85	Aids . . . Can I get it? <i>Educates co-workers and friends to deal with their attitudes and emotions to AIDS victims</i>	60 minutes
Video #86	First Aid on the Job <i>Gives valuable information to people who may not have basic first aid knowledge, but may be first on an accident scene.</i>	26 minutes
Video #87	First Alert <i>A video for those who answer the first alert. Discusses why awareness and quick action can save lives in carbon monoxide poisoning.</i>	13 minutes
Video #130	Industrial Hygiene <i>To enable supervisors develop the ability to recognize potential health hazards and to eliminate or control them. Discusses conditions that may have adverse effects on health or upon the ability of individuals to perform their work.</i>	12 minutes
Video #172	First Aid - How to Handle Bleeding Injuries <i>Basic overview on how to recognize the different types of bleeding, how to stop bleeding - techniques that can be used.</i>	5 minutes
Video #175	Hand Safety <i>Describes how to protect your hands from occupational injuries and irritations</i>	12 minutes

Medical - Health - First Aid

Video #251	Making Healthy Choices; Safe & Healthy Lifestyles <i>Discusses and gives advice on the importance of proper diet and exercise.</i>	14 Minutes
Video #255	Hypothermia <i>This program trains employees to recognize the early warning signs of hypothermia and how to prevent it from happening.</i>	11 Minutes
Video #260	Exercise Your Heart <i>Proper warm-up, dynamic exercise and cool down is shown.</i>	5 Minutes
Video #262	Your Heart: An Owners Manual <i>Discusses what can be done to reduce the chances of a heart attack.</i>	5 Minutes
Video #270	Colds & Flu <i>Describes the difference between colds and flu, how to avoid colds & flu and prevention for the spread of cold and flu.</i>	5 Minutes
Video #324	First Aid – CPR Review <i>Discusses proper First Aid and CPR techniques.</i>	12 minutes

Office Safety

****Also see Ergonomics**

Video #95	Risky Business <i>This video follows one man through the office, outlining potential hazards in such areas as VDT's, lifting and slips and falls.</i>	20 minutes
Video #97	Lady Lace on the Case <i>Lady Lace discovers that carelessness, overconfidence, and stress are three causes of accidents in an office that has had many injuries.</i>	10 minutes
Video #98	Safety in the Office <i>A general safety video that outlines the basics of office safety.</i>	13 minutes
Video #99	Office Safety <i>Done in a Dragnet setting, finding the facts of an office accident.</i>	5 minutes
Video #100	Who Needs Office Safety? <i>Takes a humorous approach in discussing the need for office safety</i>	10 minutes
Video #101	Office Safety Essentials (Manual Included) <i>Concentrates on health and safety issues relevant to all office workers and looks at the important role you play in promoting office safety and much more. May be used as a two (2) hour training tool or as a supervisor's manual.</i>	20 minutes
Video #298	Office Safety <i>Focuses on the most common hazards and resulting injuries in an office environment.</i>	14 Minutes

Personal Protective Equipment (PPE)

Video #109	The Value of Personal Protective Equipment <i>Discusses use, maintenance of PPE (hats, gloves, glasses, ear protection, etc.) The employees used are in a construction setting.</i>	12 minutes
Video #110	The Eyes Have It <i>This video emphasizes how to protect your eyes in various work environments.</i>	14 minutes
Video #111	Let's Pretend - A Case for Eye Safety <i>A psychological and dramatic approach to the serious subject of industrial eye protection. It helps to convince the participants of the importance of eye safety.</i>	20 minutes
Video #112	Playing it Safe <i>Elrod Handricks of the Baltimore Orioles explains the importance of using protective equipment to help prevent injuries.</i>	4 minutes
Video #113	Personal Protective Equipment <i>Objective: To familiarize supervisors with ways to overcome employees objections to wearing PPE. Discusses different parts of the body that need protecting, the potential hazards, and the appropriate PPE</i>	12 minutes
Video #114	Safety Expressway '92 <i>A company safety film covering personal protection equipment and lifting. A.B.C. "Always Be Careful. A promotional film.</i>	5 minutes
Video #115	Eye and Face Protection in a Lab <i>Deals with personal protection and equipment used in a lab setting.</i>	11 minutes
Video #116	In the Blink of an Eye <i>This video uses worker's experiences and expert advice to stress the importance of wearing eye protection.</i>	11 minutes
Video #156	Personal Protective Equipment <i>Discusses hazards present in work environments where PPE is needed and how to select the proper type of PPE for your eyes, face, ears, head and foot protection, plus protective clothing.</i>	9 minutes
Video #175	Hand Safety <i>Describes how to protect your hands from occupational injuries and irritations.</i>	12 minutes

Personal Protective Equipment (PPE)

Video #178	Hazard Assessment for PPE <i>This film shows how to assess hazards with jobs and operations for the purpose of selecting personal protective equipment.</i>	12 minutes
Video #200	High Impact Hand Safety <i>A graphic look at hand safety on the job including the hazards workers encounter and ways to protect the hands.</i>	
Video #216	Chemical Protective Clothing <i>This program focuses on industry regulations and standards, prerequisites of chemical protective clothing, selecting chemical protective clothing and using chemical protective clothing.</i>	1 hour 15 minutes
Video #227	Preventing Hearing Loss <i>This video discusses the anatomy of the ear, the hearing process, Decibel levels from common sources, Symptoms of noise-induced hearing loss and proper types of PPE.</i>	11 minutes
Video #268	Hard Hats – Hard Heads <i>Outlines the importance of wearing hard hats and knowing basic first aid for head injuries.</i>	5 Minutes
Video #273	Eye Injuries <i>Video shows the devastating results when eye protection is ignored.</i>	5 Minutes
Video #274	Head Injuries <i>Learn how to treat minor head injuries and recognize the signs and symptoms of more serious injuries.</i>	5 Minutes
Video #294	Personal Protective Equipment <i>Two part video that entices employees to always think safety and properly use PPE.</i>	15 Minutes
Video #299	PPE Electrical <i>Basic PPE rules when working with electricity are outlined.</i>	10 Minutes
Video #300	Protective Clothing <i>The four levels of protective clothing by EPA definition are defined and illustrated.</i>	12 Minutes

Personal Protective Equipment (PPE)

Video #301	More Than Just Rain Gear <i>Promotional video on Arc Wear testing. –</i>	5 minutes
Video #302	PPE Put It On <i>Uses old TV sitcom format to emphasize certain hazards in the work environment that require the use of PPE.</i>	10 Minutes
Video #331	Hand, Wrist, and Finger Safety <i>More than one half million upper body extremity injuries and illnesses are reported each year. Proper safety procedure could have prevented the vast majority of these injuries. Many of these injuries are to the hands, wrists and fingers. This video outlines common injuries of this sort and discusses ways to prevent them.</i>	13 minutes
Video #359	The Complete Line of Footwear <i>Proper safety footwear is a key element to many safety and health programs. Learn why proper safety footwear is so important and about the ANSI standards that address foot protection.</i>	8 minutes
Video #367	Your Precious Eyes (GORY STORY); <i>An informative, but very graphic video focused on protecting workers from workplace eye injuries. Topics covered are various eye hazards, pictures of eye injuries, selection of proper PPE, and emergency response procedures should an eye injury occur.</i>	15 minutes
Video #374	Personal Protective Equipment: An Assessment and Training <i>Designed for new and veteran employees, this program helps you meet OSHA's PPE training requirements (29 CFR 1910, Subpart I). An engaging video emphasizes the importance of PPE and gets your employees to take training seriously. It features real-life demonstrations of employees using PPE correctly, and explains why proper selection, consistent use, and regular maintenance are so critical.</i>	

Recordkeeping

Video #163	Sub-Contractor Safety Orientation <i>Covers recordkeeping, training, and safety requirements and responsibilities for worksite employers.</i>	11 minutes
Video #365	OSHA Recordkeeping for Employees <i>This is an overview of the 1904 OSHA Recordkeeping standard and explains the importance of maintaining injury-illness records. It also discusses how to determine if an incident is work-related, and if so, is it recordable by OSHA requirements.</i>	18 minutes

Respirators & Ventilation

Video #117	Respirator Training <i>Procedures to follow the correct selection and use of respirators.</i>	15 minutes
Video #118	Respiratory Protection . . . Another World <i>This award winning video will help workers avoid exposure to airborne hazardous substances that can lead to serious health effects and other chronic illnesses. Hazardous atmospheres, types of respirators, written program, fit testing</i>	19 minutes
Video #119 KIT	Respiratory Protection Program (Manual Included) <i>This trainer's tool kit will help workers avoid exposure to airborne hazardous substances that can lead to serious health effects and other chronic illness. It contains the video program, an expanded leaders guide and a copy of the employee's handbook.</i>	22 minutes
Video #120	Respiratory Protection <i>Discuss various types of respirators, their uses, maintenance and inspection. Talks about negative and positive fit testing or respirators in a construction setting.</i>	12 minutes
Video #121	Respiratory Protection <i>Use of a respirator is vital to your employee's survival in oxygen-deficient or toxic atmospheres. Demonstrates how the lungs work, respiratory hazards, types of respirators, fitting a respirator and inspection, cleaning and storage of respirators.</i>	27 minutes
Video #159	Respirator Safety <i>Explains how and why you should use a respirator and how to properly maintain a respirator.</i>	8 minutes
Video #199	Respiratory Protection <i>This video discusses respirator training, universal fitting instructions, including filtering face piece respirators, dual cartridge half face ice respirators, full-face ice respirators and fit testing.</i>	110 minutes
Video #305	Respirator Care & Use <i>Describes the proper maintenance and use of respirators.</i>	9 Minutes
Video #364	Choosing the Correct Respirator <i>This video teaches what constitutes unclean air; what respiratory hazards can't be detected by the five senses; and what conditions can create excessive dust in the air</i>	10 minutes

Safety Orientations

Video #62	Safety Inspections <i>Recognize, understand & control hazards.</i>	8 minutes
Video #63	Safety It's Up to You <i>Re-enacts real scenarios of people involved in near miss, injury and fatal accidents. Reinforces the importance of job safety analysis.</i>	11 minutes
Video #89	Supervisor Criminal Liabilities for Safety <i>A quick safety video, perfect for annual re-training, review, refresher or orientation for your supervisor.</i>	6 minutes
Video #90	Workplace Safety - Everybody's Business <i>This video program is specially designed for new employees orientation or as a general safety refresher. It emphasizes paying attention to details, hazards to watch for and responding to an emergency.</i>	23 minutes
Video #91	Employee Safety Training <i>Teaches supervisors safety training methods to be used to conduct new employee orientation or to train transferred employees. Techniques include developing a Job Safety Analysis (JSA), using Job-Instruction-Training (JIT), and preparing lesson plans.</i>	12 minutes
Video #92	Safety on the Job <i>A good general safety video applicable to many workplaces. Outlines various safety precautions that should be taken seriously.</i>	25 minutes
Video #93	Employee Safety Orientation for Automotive Personnel <i>Trains employees in the general hazards to which they may be exposed in an automotive shop, including clothing, tool safety, maintenance, eye protection, electricity, etc. Excellent for new and experienced personnel.</i>	14 minutes
Video #124	Human Behavior – Reducing Unsafe Acts	1 minute
Video #125	Reporting for Work: Your Safety Responsibilities <i>General safety basics that can be used to reinforce and supplement your safety orientation program for new employees as well as experienced employees on their responsibilities for reporting to work in proper clothing and safety attitude.</i>	10 minutes

Safety Orientations

Video #126	Safety Management <i>This video shows the hidden cost in unsafe working conditions and teaches important safety procedures.</i>	14 minutes
Video #146	Employee Safety Orientation <i>Overview of safety responsibilities for new employees.</i>	14 minutes
Video #163	Sub-Contractor Safety Orientation <i>Covers recordkeeping, training, and safety requirements and responsibilities for worksite employers.</i>	11 minutes
Video #215	Supervisor's Safety Responsibility <i>This video briefly goes over the responsibility that supervisor's have for the safety of the employees they are supervising and consequences if they may face if they fail in this responsibility.</i>	8 minutes
Video # 217	Safety Orientation <i>This video is designed to present the fundamentals of developing a good safety attitude and safety practices for new employees including: the importance of a good safety attitude, developing a safety sense about their job, evaluating their workplace for potential hazards, proper use and maintenance of tools, PPE, and more.</i>	13 minutes

Security

Video #361

Workplace Security

10 minutes

Workplace security is intended to protect workers in the work environment. Individuals who do not belong in a work area pose a hazard to themselves and to others. The use of photo identifications is one way to determine whether or not an employee should be in a certain area or not. Remember, enforcing security helps ensure safety.

Slips, Trips, and Falls

****Also see Fall Protection**

Video #132	Slips, Trips, and Falls <i>Discusses common causes, preventative measures and falling techniques</i>	5 minutes
Video #134	Must We Fall <i>A stunt man outlines necessary safety measures to help avoid accidents in the workplace.</i>	20 minutes
Video 307	Slips, Trips and Falls <i>Statistics, injuries and common causes are discussed.</i>	17 minutes
Video #375	Preventing Slips, Trips, and Falls: Don't Fall Down On The Job <i>This video is suitable for all facility personnel who may be exposed to slip, trip, or fall hazards in the workplace. Fall protection expert, Nigel Ellis, Ph.D., CSP, P.E., also appears in the program with comments about fall prevention. In addition to general safety regarding slips, trips, and falls, safety considerations for using stairways, ladders, and scaffolds are also discussed. This program is excellent for showing workers the hazards that exist in the workplace which may lead to slips, trips, and falls and the steps they can take to prevent slip and fall related accidents.</i>	16 ¾ minutes
Video #651	Slips, Trips and Falls <i>Professional stunt people demonstrate falls in several environments engaging and entertaining your workers while teaching them important safety tips for eliminating fall hazards in their work environment. Included in this superb program from Summit is vital information about fall protection equipment. The program also covers:</i> <ul style="list-style-type: none">• <i>Good housekeeping</i>• <i>Picking up obstacles</i>• <i>Cleaning up spills</i>• <i>Eliminating hazards in the office environment</i>	12 minutes

Tools (Hand & Power)

Video #37	Hand Tools and Portable Power Tools <i>To enable supervisors to work with their employees to eliminate the accidents caused by hand and portable power tools. Discusses how tools are involved in many accidents in plants.</i>	12 minutes
Video #39	Hand & Power Tool Safety for Automotive Mechanics <i>Good introduction to hand and power tool safety. Explains procedure for tool safety, housekeeping, etc. Good refresher.</i>	12 minutes
Video #40	Talking Shop <i>Deals with the safety of hand tools, which are powered by muscles.</i>	20 minutes
Video #41	Hand Tool Safety <i>You will be shown how to select the correct tool for the job, using the tool correctly, tool inspections, maintaining tools in a safe condition and manufacturers instructions and warnings.</i>	28 minutes
Video #94	Box Cutter Safety <i>This program explains how to properly cut boxes and prevent injuries.</i>	7 minutes
Video #267	Shock Hazards – Power Tools <i>Discusses simple ways to prevent electric shock from power tools.</i>	5 Minutes
Video #313	Hand Tool Safety <i>Covers PPE, using the correct tool for the job, using the tool correctly and tool maintenance.</i>	21 minutes
Video #314	Pneumatic & Hydraulic Tools <i>Alerts viewers to know the difference between pneumatic and hydraulic tools, their hazards, and limitations.</i>	9 minutes
Video #316	Power Tool Safety <i>Discusses the safe usage of various types of hand-held power tools.</i>	18 Minutes

Tools (Hand & Power)

Video #652	Grinder Safety <i>Grinder and Abrasive wheels are common tools that pose great dangers. If improperly used, grinders can explode causing serious injury. This video focuses on safety operation of these tools. Areas looked at are pre-operation setup, proper handling and selection of wheels, and safety work practices.</i>	6.5 minutes
Video #908	Sensible Wood Cutting <i>Basic techniques that can make your cutting experience safer and more productive.</i>	25 minutes

Trains

Video # 136 **Staying Alert & Alive** **14 minutes**
This video discusses signage, distractions and railroad crossings.

Video #635 **What You Don't Know About Trains** **15 minutes**
Focuses on the hazards of drivers attempting to beat a train through a railroad crossing.

Trenching & Shoring

Video #135	Trenching & Shoring <i>Shows safe procedures for trenching & shoring, including steps to be taken before excavation begins, basic duties of the competent person, soil classification, protective support systems, safety practices & emergency response procedures.</i>	20 minutes
Video #154	Trenching & Shoring - Safety Bite <i>OSHA's rules on excavating and trenching.</i>	5 minutes

Trucks

Video #5	Bucket Trucks I <i>An introduction to bucket trucks. Identifies major parts, safety devices and overrides, and visuals and operational checks. Geared toward electrical industry.</i>	44 minutes
Video #6	Bucket Trucks II <i>A continuation of Bucket Trucks I. Goes over the different types of bucket trucks and the safe operation in several different situations.</i>	52 minutes
Video #88	Motor Fleet Maintenance Safety <i>Motivate your fleet repair personnel to see safety as part of their job as a professional! This video reviews basic safety tips, also covers industry specific safety hazards and checks</i>	12 minutes
Video #170	Trucking and You <i>Rules and laws when dealing with trucks.</i>	10 minutes
Video #225	How to Safely Stop a Commercial Vehicle (2001) <i>The Ohio State Highway Patrol and Roadway Express teamed up to produce a video aimed at law enforcement officers and to correctly stop a commercial motor vehicle. Stage 1: Assessment, considerations such as location of stop and weather conditions. Stage 2: Tactical portion, dangers and points to remember. Stage 3: Clearing the scene</i>	
Video #334	Traffic Safety <i>Motor vehicle accidents are the single largest cause of work fatalities. This presentation reviews skills such as reading the road ahead, following distance and maintaining a cushion of safety around your vehicle.</i>	8 minutes
Video #335	Driving Safety <i>As part of the 'daily grind', driving can seem routine. But the roads can be very dangerous. More than 30,000 people are killed, and over one million are injured in traffic accidents every year. Traffic accidents are the number one cause of death on the job.</i>	13 minutes
Video #336	Vehicle Safety <i>When driving in a plant, follow the same driving rules used on the roadway. Know the braking systems and use each brake appropriately. Use the vehicle's lighting system to illuminate the path and warn others of the vehicle. Know the location of and properly use all safety equipment provided on the vehicle. Remember, following proper maintenance schedules keeps a vehicle and its safety equipment operational.</i>	13 minutes
Video #636	Sharing the Road with Big Trucks <i>Discusses safety of the road concerning the truck drivers.</i>	18 minutes

Trucks

Video #637	It Only Happens to the Other Guy <i>Actor James Whitmore talks about safety and what happens to the "other guy". It stresses safety on the job while driving tractors and trucks.</i>	18 minutes
Video #638	Division Vehicle Services <i>A synopsis of the Commercial Drivers License pre-trip and road skill testing. Produced by the Ohio State Patrol and demonstrates actual skills test and pre-test that they conduct.</i>	52 minutes
Video #641	Knights of the Road <i>Excellent overview for professional truck driver training. Covers 6 separate modules covering defensive driving techniques and accident avoidance skills.</i>	45 minutes
Video #643	Safe Truck Driving <i>Discusses the importance of truck drivers driving safely on our roads.</i>	20 minutes

Walking & Working Surfaces

Video #143 **Walking & Working Surfaces - Watch your step** **19 minutes**
Shows common hazards and ways to avoid them on ramps, scaffolding, floor openings, elevated surfaces, elevating platforms and falls.

Video #145 **Walking & Working Surfaces; Safety Short** **5 minutes**
Basic steps to remember when walking and working on all surfaces. Slips, trips, and falls, specific work surfaces that prevent unique hazards.

Welding

Video #369

Welding Safety

13 ½ minutes

Like many industrial processes, welding can be very dangerous. Whether an employee is working with the hazardous gases of an "oxyacetylene" unit... the high voltage of "stick welding"... or the combination of gas and electricity that powers "MIG" and "TIG" operations... flying sparks, toxic fumes, electric shock and high temperatures are just some of the things that can make welding a dangerous proposition. This training program will remind your employees that there are indeed a number of hazards associated with welding, and provide the information they need to work safely when involved with welding operations.

Work Zone Safety

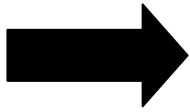

Video #358

Highway Construction and Maintenance Safety

7 minutes

Topics include: where the flagger should stand, how traffic should be directed at a worksite, and when a "Road Work Ahead" sign needs to be posted.

Workers' Compensation

***Looking for better rates on your workers comp??
Ask the Safety Council how they can help you save money!***

- Video #218** **Workers' Compensation – It's All How You View It** **10 minutes**
Revises the potential cost of a workers' compensation claim, explains the manager's three critical tasks that directly impact workers' compensation costs and discusses a six point system for managing and minimizing workers' compensation costs.
- Video #219** **Workers' Compensation – You Make It All Come Together** **10 minutes**
Covers the basic features of a workers' compensation program and explains the five key roles that supervisors or team leaders may play.
- Video #220** **Workers Compensation – It Works For Me** **9 minutes**
Explains how workers compensation works when employees suffer an injury or illness.
- Video #280** **Workers Compensation Fraud** **12 Minutes**
Provides information on how to detect workers compensation fraud and steps to handle it.

Training Kits – No Charge

Video #32 KIT	Forklift Safety - 2 videos with leader guide 37 minutes 1. Forklift Fundamentals: <i>Describes the different kinds of forklifts, car vs. forklift, controls and instrumentation and other areas.</i> 2. Forklift Operations: <i>Covers the operating conditions and the special hazards that vary with each job.</i>
Video #119 KIT	Respiratory Protection Program (Manual Included) 22 minutes <i>This trainer's tool kit will help workers avoid exposure to airborne hazardous substances that can lead to serious health effects and other chronic illness. It contains the video program, an expanded leaders guide and a copy of the employee's handbook.</i>
Video #1100 KIT	Fire Safety (Full training kit) <i>There's no second chance.</i>
Video #1101 KIT	School Bus Driver (Full training kit) <i>Defensive Driving Coaching</i>
Video #1102 KIT	Fall Protection (Full training kit) <i>A training program for employees</i>

Training Kits – Rental Charges Apply

Video #1200
KIT

Forklift Operators Training

\$50 per week

This program will satisfy the classroom portion for certifying your forklift operators. Includes: Videos, transparencies, manual and a test to copy.

*****Forklift Operator Workbooks can be purchased through the Safety Council. These workbooks work in conjunction with the training kit and certification cards come with the book.**
